

# Egypy Cell Towers

Hany Nagaty

I came across the OpenCelliD web site that has a database for all the cell sites in the globe. I downloaded the data for Egypt, all 4 operators, and I'm presenting them here.

Just mind the license that states that “*Data is free to use & distribute. We only ask that you include the following attribution string visibly.*”

***OpenCelliD Project is licensed under a Creative Commons Attribution-ShareAlike 4.0 International License***

## Useful Links

- This link has a description for the data [http://wiki.opencellid.org/wiki/Menu\\_map\\_view#Cells\\_database](http://wiki.opencellid.org/wiki/Menu_map_view#Cells_database)
- This is a useful FAQ <http://wiki.opencellid.org/wiki/FAQ>

## Summary Table

Network	UMTS	GSM	LTE
1	67.98% (40275)	28.49% (16881)	3.53% (2092)
2	61.87% (60235)	29.92% (29133)	8.21% (7995)
3	56.31% (33898)	36.36% (21887)	7.33% (4415)
4	14.40% (71)	0.20% (1)	85.40% (421)
10	66.67% (2)	0.00% (0)	33.33% (1)
